The Power of Working the Steps and Traditions

Contributed by Michelle

I've been twelve stepping for seven years now in another program. I know the power of working the Steps and Traditions because of the results I have experienced personally. Just for today, the grief that I struggled with for over six years no longer cripples me, and suicide is no longer my back-up plan. Just for today, my life is neither perfect nor easy, yet it is good and I am grateful. Since, over the last seven years, I've had lots of opportunities to practice (imperfectly) my program in numerous situations of trauma and loss, just for today, when challenges big or small occur, I am able to use program tools to navigate the situation du jour and then to return to being happy, joyous, and free fairly quickly.

Given all this, I think I found it odd, and most certainly humbling, to realize recently that I have spent the last few weeks cycling through binge eating and fasting. These are not consistently ongoing behaviors in my life, but there have been a number of periods since my late teens when

Event Recap! Sponsorship Day

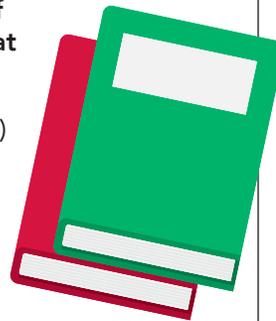

Contributed by Tara L.

Sponsorship Day was celebrated by over 20 OA members from all around the Tampa Bay Area on Saturday, August 18, 2018 at Cypress Point Park. Cold beverages, icy water pistols and a lovely bay breeze kept us all cool as we listened to two OA members share their experience, strength and hope in the area of sponsorship and then answer questions from the group. Members and their families and friends played on the beach and playground, participated in our arts and crafts table, or simply stayed in the shade and enjoyed fellowship with one another. Thank you to Pinellas Traditions Intergroup for co-sponsoring this event with us! Thank you to all my Suncoast Intergroup members whose hard work made this event possible. Most of all, thanks to all members who attended and brought their families for fellowship. **Together we get better!**

Sólo por hoy! Hispanohablantes.

Comedores compulsivos anónimos, OA es un programa que me salvo mi vida. Hoy estoy abstinente, eso quiere decir que no estoy comiendo compulsivamente, es un programa en que ocurren los milagros y se comparte, esperanza y recuperación. El primer paso admitimos que éramos impotentes ante la comida, qué nuestras vidas se habían vuelto ingobernables. Y la tercera tradición dice...El único requisito para ser miembro de OA es el deseo de dejar de comer compulsivamente. — OA miembro MP
English translation below:

OA is a program that saved my life. Today I am abstinent. I am not eating compulsively. It's a program where miracles happen in your recovery. Step one is that we admitted we were powerless over food—that our lives had become unmanageable. The third tradition—the desire to stop eating compulsively is the only requirement for OA membership.

The Power of Working The Steps and Traditions (continued)

I used this coping mechanism to keep the sadness, fear, and loneliness I was experiencing at bay. Yesterday, I realized that I've picked up those tools once again since, also once again, life is presenting circumstances that elicit feelings of sadness, loneliness, and fear.

Gratefully, I knew enough to recognize these old coping mechanisms; to honestly acknowledge they are destructive, not sustainable, and will not work on a long-term basis; and to identify them as the symptoms rather than the cause of my disease. Thanks to my twelve step history, once I became aware, I knew enough to do a web search for OA meetings, to call the contact person listed, and to walk into my first meeting. Today, I knew enough to suit up and show up for another meeting, and I've already marked my next week's meetings on my calendar. Knowing the power of sponsorship, I am listening in order to hear the sponsor who has the peace, serenity, and abstinence in their life that I long for in mine so that I may begin learning from their experience, strength, and hope.

The holidays are coming. Last Thanksgiving, I ate normal amounts of food during the time I was with others, and then came home to an empty house where, alone, I ate three meals worth of leftovers while also binge-watching movies that only made me feel worse about myself.

I don't want to do this again this Thanksgiving. After 28 years of on-again, off-again bingeing and fasting, I want to do things differently. OA has tools specific to my mindless obsession with binge eating that simply aren't present in my other twelve step program. I am grateful I am here now to learn these new tools.
